Victim's choice

NoMeansNo

Ready or not Eehaw, looks kile I got a datem boys

You end with an ear if you start with a sound Break in a circle that comes never round Opened my eyes to see the light There you were to my delight

Hair in your nose and frost in you brow You looked like a bear but you smelled like a cow You made me meal of milk and wheat I opened a vein and bled to your feet

Variety, variety, that's what I like to see Joy the world you dirty old bag This is the best time I ever had One day was an eternity Here's to the years that you gave to me

Here's to the rain that flatters my hair Here's to the smell of smoke in the air Here's to the straw where I make my bed Here's to the hole where i'm lying dead

Ready or not What I like is the incredible variety Ready - no, no, no Ready or not
