

# Before You Go

Nomy

Face down to the ground  
Let's gather all around  
Hands deep in the mud  
We wanna see some blood

Face down to the ground  
I'm gonna make you drown

Let's try to look alive  
Just one more time  
Still you keep fighting right until you die  
Let's try to let it go  
Just one last time  
We'll make it slow  
Before you go  
Before you go

All are standing close  
And you know all of those  
Standing in the dark  
A needle in your heart  
And all they can take  
You're never gonna break

Let's try to look alive  
Just one more time  
Still you keep fighting right until you die  
Let's try to let it go  
Just one last time  
We'll make it slow  
Before you go  
Before you go  
Before you go  
Before you go  
Before you go

'Cause all we said  
Won't make you break  
Alive or dead  
And still you try  
To stand up straight  
We don't know why

Let's try to look alive  
Just one more time  
Still you keep fighting right until you die  
Let's try to let it go  
Just one last time  
We'll make it slow  
Before you go  
Before you go

Let's try to look alive  
Just one more time  
Still you keep fighting right until you die  
Let's try to let it go  
Just one last time

We'll make it slow  
Before you go
