

Miracle

Nonpoint

Whoa you better blow the whistle, ring your bell
Train a little harder than you can you ever will
You need to think fast, this is the person here you see will be
your last
Get a doctor or a priest, not an animal Im a beast
You need to start runnin
Youre standin on the tracks and the train is commin

Nowhere to go, you need
You need a miracle, something better save you
Before something bad happens to you
Whoa you need a miracle, Nothings gonna save you
and Ill scream it from the top of the world

I can see your scared startin to show
Not the kind of person thats turnin' away from you
You better get some help, cuz theres nothing you can do, do to
help yourself
Got news if you think your bad, all your other fellas make me l
augh
Grabbin you with both of my hands, takin you home and tearin yo
u in half

Nowhere to go, you need
You need a miracle, something better save you
Before something bad happens to you
Whoa you need a miracle, Nothings gonna save you
and Ill scream it from the top of the world

Whatcha gonna do when its just me and you
Whatcha gonna do, Whatcha gonna do

You need a miracle, something better save you
Before something bad happens to you

Nowhere to go, you need
You need a miracle, something better save you
Before something bad happens to you
Whoa you need a miracle, Nothings gonna save you
and Ill scream it from the top of the world
