

## Two and a Shot of Jack

Nora

I took two and I didn't notice  
I took two and it didn't make a difference  
And the good guys don't always win  
It's still noisy as Hell  
The sun doesn't always shine  
I did the best I could  
All the promises that we broke  
And all the lies that we were told  
We'll go to bed  
With the best and worst thoughts in our heads  
And hope for sleep  
Cause tomorrow you'll wake up beautiful  
And all the people we made cry  
Everything will be alright  
And come out on the other side  
We've walked through suicide  
So I'm gonna take two more  
I'm worn down and wearing away  
It's bedtime everyone  
All the promises we broke  
And all the lies we were told  
All the beatings that we took  
And all the people we made cry  
For all our friends who we left behind  
Or we lost to suicide  
We're never coming home.
