

# Heaven Above

Norah Jones

I'm lonely  
'Cause I'm looking at pictures of you  
While I listen the snow  
Being pushed off of the roof

I can't stand it  
When I forget the things that I've got  
And I'm wondering why  
They were not in my life, no sign

I was mistaken  
When I thought we could have it all  
We can see what we wanna see  
Before we have to fall

I'm just smiling  
At the thought of a day long ago  
When you asked me to stay and I left  
At the fork in the road

We were dancing  
In the place where your heart was in love  
And the pieces of wind in our place  
Sent from heaven above
