

All along

North Mississippi Allstars

I never had a clue
I trusted you
I can't believe you've done this to me
Never had a clue untrue
All along, all along, all along, all along

You wasted so much of my time
Can't get it off my mind
Put all my faith in you
I don't know what to do
Shoulda known you were doin' me wrong
All along, all along, all along, all along, all along

Underneath the dreams that fall apart
Are nightmares and broken hearts
Why didn't you just let me go
Everybody knows I'm all alone, all alone, all alone, all alone

From now on I'll be on my own
I'll think of you every time I hear this song
I should o' known you were doin' me wrong
All along, all along, all along, all along, all along
