

## Dead

Norther

There's pain within,  
I can't define  
Inside, within, inside,  
illhealthy I feel  
---chorus---  
When your inmost yields  
and you fall  
deeper and deeper into grief  
for each breath you take  
---chorus---  
Dark dresses my pale skin  
cold shivers down my spine  
I have lost hope  
of loving a day of life  
Faith  
has fallen from me  
I'm rotting inside  
Fear  
sickening conditions  
frightening reflections  
...feeling divine!!!  
...so dim the light in me...  
...no nothing...  
...all ending...  
#solo: P.Lindroos & K.Ranta#  
Sleeping well in my killing bed  
staring blind around -  
Am I slipping away?  
In the hollow decorating my grave  
begging please...  
disconnect the pain  
---chorus---  
When you're going blind  
from your tears  
and you wander deeper  
and deeper into sorrow  
for each step you take  
And your feet won't carry  
you no more  
and you sink deeper  
and deeper into misery  
and you'll soon be...dead  
---chorus---  
...so dim the light in me...  
...no nothing...  
...all ending...
