

## Evil Ladies

Norther

They are the devils on earth, high heels and little black skirt  
They live just for pure pleasure  
They are the dolls of doom, black eyes like shine of the moon  
They kill just for pure pleasure

Evil they seem those ladies, evil we like our ladies  
Evil they are those ladies, evil we want our ladies

They are the cats indeed, their touch is all you need  
They live just for pure pleasure  
They are the girls of fire, they know the game of desire  
They kill just for pure pleasure
