

# The Victorious One

Norther

Kill...  
Again I see the shadows  
Crawling in my mind  
I try run but I can't hide  
This endless war inside me  
Has torn my heart apart  
My minds vengeance will be so sweet

Again I'm on the run  
To kill the pain inside me  
I am the one who cries  
In the dark alone  
Hearing voices,  
I have to kill those evil memories  
You don't know,  
But you have to die beside me

The night is here and I'm close to you  
There is a question for you to answer  
Will you be with me forever  
Or will you die, just for me  
I'm free 'cause you chose to die  
But it won't change a thing  
The fire in our souls  
Has died away  
My heart is evil  
And I have this lust to kill you  
We are together in death  
And so it shall be

With my heart I see the flames again  
They are there for me  
With my evil memories  
I burn in misery  
I know there's a sorrow around you  
But time will heal  
I told you a lie  
That I could never die  
The night is here and I'm close to you  
There's a question for you to answer  
Will you be with me forever  
Or will you die, just for me
