

# Through It All

Norther

Far past the time of my own time  
I realized I was going wrong  
This night, this fight, will change my life  
All I know will be like it was  
Unlike the lies you could make me see  
This life is a fight I will survive

Soaring high  
Through it all  
Burning bridges made me stronger than you all

All things are made and broken  
Still I haven't found what broke me down  
This night, this fight, will fix my life

Soaring high  
Through it all  
Burning bridges made me stronger than you all  
Drawing lines  
Circle-wise  
Burning bridges made me stronger than you all  
I will remember, I can't forget  
You will remember, I can't forget  
You will remember, you can't forget
