

Too Fast

Northern Lite

I didn't think - gave you my hand
Shocked by the way you could understand
Just one look - that can't be wrong
You said "let's go" - and I came along

Sweet reflection from my past
That night, it went too fast - I wish it could last

Look back - and see what we've built
Already some of our needs fulfilled
Yeah - I felt like I've got wings
While the master pulled his strings, yeah

Sweet reflection from my past
That year, it went too fast - I wish it could last

Hours and days, you gotta let 'em go
The ones you love - gotta let 'em know
Because you got a limited permission to stay
Pretty sure you're gonna say someday:

Sweet reflection from my past
This life, it went too fast - I wish it could last
I wish it could last, yeah
