

# Far Too Strong

Nostradameus

For many years they've waited now to go back home  
Over the seas in ships of purest gold  
For milleniums I have endured their purity  
It's time to rise, their end is near

My darkened hand's too strong  
You won't carry on  
Soon I'll find the one  
And then I've sealed your fate

My power's far too strong  
With longboats that carry thousands  
You're meant to sail  
To the west, to the land of the gods  
Your ancient home  
I will enslave all you fools  
The time has come  
You'll never conquer my powers  
You're just too weak  
My power's far too strong

Now I'm alive in physic flesh of evil sin  
Damn you fools if you think that you can win

My darkened hand's too strong  
You won't carry on  
Soon I'll find the one  
And then I've sealed your fate

Plague - I'll bring your lands  
Rape - Rape your beautiful daughters  
Hate - You must grow strong  
And then you all will be my slaves

Now high lord elves prepare to die in war of the rings  
Pain, greed, death, hate is what will be

My darkened hand's too strong  
You won't carry on  
Soon I'll find the one  
And then I've sealed your fate

My power's far too strong  
With longboats that carry thousands  
You're meant to sail  
To the west, to the land of the gods  
Your ancient home  
I will enslave all you fools  
The time has come  
You'll never conquer my powers  
You're just too weak  
My power's far too strong

Plague - I'll bring your lands  
Rape - Rape your beautiful daughters  
Hate - You must grow strong  
And then you all will be my slaves

Plague - I'll bring your lands  
Rape - Rape your beautiful daughters  
Hate - You must grow strong  
And then you all will be my slaves
