

## Your Betrayal

Nostradameus

You never cared for human rights  
You always had a way to justify  
Your crimes against humanity  
But now the time has come for you to see  
That we have no intention ever to forgive...

Your betrayal  
No, we have no intention to forget  
Your betrayal

The wars you start around the world  
The truth about them will soon be heard  
You're leaving children there to die  
You twist our minds with lies and tell us why  
But we have no intention ever to forgive...

Your betrayal  
No, we have no intention to forget  
Your betrayal

So as your army marches on  
United states or nations, who won?  
When rules we had to keep us free  
Were not for you but just for them and me  
And we have no intention ever to forgive...

Your betrayal  
No, we have no intention to forget  
Your betrayal
