

# Homeless

Novaspace

Everywhere I go I' m lonely  
Everywhere I stay I feel like far away from home  
In my world of dreams you care for me  
In my deepest wish you allways keep me save and warm

Feel homeless - so homeless  
Feel homeless - so homeless

Take away my fears in darkness  
Wash away my tears now and forever in my live  
Bring me back the days of laughter  
Is there any place of love home where I belong?

Feel homeless - so homeless  
Feel homeless - so homeless
