Can't sleep tonight I'm still waitin' For a wonder soon to happen And I pray Is there anyone out there ? I need consolation Why can't I still be with you I thought it was paradise When I found you Paradise -Have I been wrong ? I thought it was paradise But I've been mistaken You left me here all alone Can't see the light And I'm losin' Any hope, there's nothing that I haven't tried Is there anyone out there To relight the fire ? Why don't you give me a sign ? I thought it was paradise When I found you Paradise -Have I been wrong ? I thought it was paradise But I've been mistaken

You left me here all alone
