

Lonely Christmas

Now, Now

Sitting by the firelight
I don't wanna be left alone
Every December night
You've got me wishing

But I can't cry anymore for you, baby
No I can't think about the new year
And I won't write another song for you, honey
But I'm still wishing

Every single second
I'm wishing you were here with me
So I can hold you closer
By the Christmas tree

It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely

It might be cold outside tonight, but I don't feel it
Yeah, I feel nothing
I just want to sit with you in my car
Listen to the radio

Wishing that I had you back
Like I did last year
Baby, won't you take me back
I just want you

Every single second
I'm wishing you were here with me
So I can hold you closer
By the Christmas tree

It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely

I've been missing you, babe
Every December night
Everything was magic
Now you don't wanna try
When you're holding her close
Are you thinking of me
I'd do anything, baby
Just to make you believe

It'd be a lonely Christmas
Without you, baby
Baby, I don't want no presents
I just need your love, yeah

Every single second
I'm wishing you were here with me
So I can hold you closer

By the Christmas tree

It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely
It's Christmas, don't go leaving me lonely

Don't go leaving me...
Leaving, leaving me lonely...
