

## Set It Free

Now, Now

Oh you make it look so easy  
A love came freely  
She had her chances  
Could leave it in the past there  
She took advantage  
She's taking it for granted  
You know I try so hard  
But I understand it

She loves to say "you're fool"  
Let it be  
Well if you change your mind about me

Cause you look so sweet in the heat of summer  
You drive me crazy when your hands start to wander  
You're lonely honey, can't you see what I see  
If you love me baby you've gotta set it free

You're looking that way, I just can't stand it  
I learned my lesson but you break it like a habit  
Oh, you can run from me baby but you won't get far  
Every time I close my eyes you kiss me in the dark

But if you say you're gone  
Let it be  
Well if you change your mind about me

'Cause you look so sweet in the heat of summer  
You drive me crazy when your hands start to wander  
You're lonely honey, can't you see what I see  
If you love me baby you've gotta set it free

You look so sweet in the heat of summer  
You drive me crazy when your hands start to wander  
You're lonely honey, can't you see what I see  
If you love me baby you've gotta set it free

Cause you look so sweet in the heat of summer  
You drive me crazy when your hands start to wander  
You're lonely honey, can't you see what I see  
If you love me baby you've gotta set it free  
If you love me baby you've gotta set it free
