

## Yours

## Now, Now

I'm driving faster with the windows down  
Just to keep my mind off of you  
So don't you try to ignore me  
You stood in the light before me  
Because you adore me

I could listen to your voice all night  
Whisper to me baby, tell me what you'd like  
Who're you kidding baby, when you try and deny me  
When you try and deny me

I'll make you stay, there's just no way  
I'm leaving without your love  
You make me wait to hear you say  
"If you wanna make a move, come on"  
If I had my way, I would be yours  
You say my name, I have no choice  
Baby it's time to get comfortable

You're so emotional when you walk into the room  
I can't keep my eyes off of you  
You got me doing things that I shouldn't do  
But baby I like it

Who're you kidding baby, when you try and deny me  
Who do you think you're fooling, when you're trying to fight it  
When you're trying to fight it

I'll make you stay, there's just no way  
I'm leaving without your love  
You make me wait to hear you say

"If you wanna make a move, come on"  
If I had my way, I would be yours  
You say my name, I have no choice  
Baby it's time to get comfortable

I'm driving faster with the windows down  
Just to keep my mind off of you  
I'm leaving the light on for you, baby won't you come my way  
So come on baby won't you come my way

I'll make you stay, there's just no way  
I'm leaving without your love  
You make me wait to hear you say  
"If you wanna make a move, come on"  
If I had my way, I would be yours  
You say my name, I have no choice  
Baby it's time to get comfortable

How can I keep up when I know you're moving so fast  
Just gimme a reason baby know I want you so bad  
I'm leaving the light on for you baby, won't you come my way  
So come on baby won't you come my way

How can I keep up when I know you're moving so fast  
Just gimme a reason baby know I want you so bad

I'm leaving the light on for you baby, won't you come my way  
So come on baby won't you come my way
