

Me and the Boys

NRBQ

Just a bunch of guys gettin' in the car
No matter who's drivin' or for how far
Feels so good, feels so alive
No backseat driver tellin' us how to drive

Me and the boys
Just me and the boys
Me and the boys
Me and the boys

Me and my buddy just like to go
We'll have fun, everybody knows
We don't fuss and we never grab
We just groove, takin' in the sites

Me and the boys
Just me and the boys
Me and the boys
Me and the boys

Don't raise questions 'bout how it's done
We're just messin' 'round havin' fun
The car gears shiftin' well up and down
Mufflers a little loud but we love the sound

Me and the boys
Just me and the boys
Me and the boys

It ain't like us to hang around
This town is square and just bringin' us down
I've got to find us something new
I don't wanna think about what do they now

Distance no problem and we don't care
Cause where ever we're goin', we'll soon get there

Me and the boys
Just me and the boys
Me and the boys
Just me and the boys
Me and the boys
Just me and the boys
Me and the boys
Just me and the boys
Me and the boys
