

Dark

Number One Gun

I'd do this for you
All for you
But this is for me
All for me

And we are just faking all along
'Cause everyone's got their secret song

Oh you can stay here forever
I won't
You can sit and regret everything
But I don't

Cause I walk alone
Always alone
YEA
After I figure this out I'm not coming down
No

You say you're happy with your daytime jobs
Oh please
Well guess what
Your lowest point is the high for me
YEA
You small town idiots won't keep me from my dreams
I'll see to it, you'll see this side of me
OH YEA

I'd do this for you
All for you
But this is for me
All for me

And we are just faking all along
'Cause everyone's got their secret song
(Everyone's got their secret song)

I'll turn this boat around
Your watch your tear
If you think I can not
Then your dead to me

Maybe I've been hiding in heaven
Or I've been to hell
And now I'm back again

I'd do this for you
All for you
But this is for me
All for me

And we are just faking all along
'Cause everyone's got their secret song

Maybe I should let this all go
No I won't cause it's all that I know
I'll kick and scream

Scream and kick
What's it worth
What's it worth
WORTH

I'd do this for you
All for you
But this is for me
All for me

I'd do this for you
All for you
But this one's for me
All for me
