

# Disappear

## Number One Gun

Body on the shoulder  
Heavy is upon us  
Isn't what you wanted  
Tell me when it's over

Over this I hate it  
But hate is overrated  
Rate what you can make it  
Can you even take it all  
Away

Disappear Disappearing  
(Heavy is upon us)  
Your disappear disappearing

You got to run away  
You got to escape  
You're nowhere now  
NO

You do anything for love  
'Cause love is what you're made of  
You'll make it out oh somehow  
Just keep your eyes on me now

Your worry will be over  
Over soon just know that  
That I will overcome this  
For you I'll take it all away  
(Away)

Disappear Disappearing  
(Heavy is upon us)  
Your disappear disappearing

You got to run away  
You got to escape  
You're nowhere now  
NO  
You're nowhere now  
(You're nowhere now)

Burden off shoulders  
It's over now  
Oh yea so  
Look up the sky is  
Is pouring out  
Your love

Disappear Disappearing  
YEA

Disappear Disappearing  
(Heavy is upon us)  
Your disappear disappearing

You got to run away

You got to escape  
You're nowhere now  
Oh  
You're nowhere now
