

Life Is What You Make It

Number One Gun

I know you had to go
It's too late to turn back
And I know you're so far away
It's too bad all the things that you might say
I saw the way you move
You never stop to notice what you have
You saw the way I looked at you today
When everyone is sweet, now

Oh, yeah nothings gonna change
But everyone is sweet, yeah
You wanna walk away
But life is what you make it
You have to go away
But maybe you'll just wait, yeah
It's time to turn around
'Cause everyone is sweet

And I know you had to go
It's too late, it's over
And I know you're so far away
It's too bad all the things that you might say
The live is never changing
But this life is rearranging
And this life it always goes on
This life is never gonna change
This live is never over
