

Make A Movie

Number One Gun

Hey what am I to do
I guess I'll put myself out
And lay it all out for you

And hey
What you gonna say
You're so quiet right now
But your love is so loud

Wake up, Wake up,
Never wanna wake from this all
Oh you're calling my bluff
My luck
Always feeling held up, held up
So tell me

How long will it take love
I'm gonna count my lucky stars tonight
Make a movie out of us tonight

Oh (10x)

Hey
Remember all the days
We used to sit in the dirt
And throw rocks in the lake

And hey this is what it means
To be the man that takes your hand
Cause you're the girl of my dreams

Wake up, Wake up,
Never wanna wake from this all
Oh you're calling my bluff
My luck
Always feeling held up, held up
So tell me

How long will it take love
I'm gonna count my lucky stars tonight
Make a movie out of us tonight

Tell me
As I breath deep
(And say) Oh (10x)

You're the right one baby
At right time baby

How long will it take love
I'm gonna count my lucky stars tonight
Make a movie out of us tonight

Tell me
As I breath deep
I'm gonna count my lucky stars tonight
Make a movie out of us tonight

Your the right one baby
At right time baby
(3x)
