

Try It

Number One Gun

I don't even want to guess
How much it hurts to have
Nothing in the way of this
I will never know you sad
You didn't even see us here
You might as well disappear
It didn't matter all along
It didn't matter right or wrong

Decide
I will be fine
And all along the back of my mind, I am
Way too fast
This won't, won't last
'Cause I'm way too fast
You cant, can't see my mind and I'm
Way too young, what I believe is mine alone
And I'm way too fast
Can't take my reason why tonight

Even when I'm all alone
I take in the breath and hold
Average is 5 a day
I have plenty more to take
And what am I to say to you?
What do I fall into?
Fall into all the lies
Can you make me realize?
(Can you make me realize?)

Decide
I will be fine
(I take in the breath and hold)
And all along the back of my mind, I am
Way too fast
This won't, won't last
'Cause I'm way too fast
You can't, can't see my mind and I'm
Way too young, what I believe is mine alone
And I'm way too fast
Can't take my reason why tonight

(Can't take my reason why tonight)
Way too fast
This won't, won't last
'Cause I'm way too fast
You can't, can't see my mind and I'm
Way too young, what I believe is mine alone
And I'm way too fast
Can't take my reason why tonight
