

Can't Go Wrong

O.C.

CHORUS:

We just can't go wrong

You got me hypnotized, mesmerized (mesmorized)

What you want, I shoot a line, thinkin maybe we can talk, cause

The first time I laid eyes on you, boo

I seen into the future, you and I true blue, huh

High school, eleventh grad, my-my you fly

I was struck, you gave a go, we took it slow

Every Friday you mad it my day, comin to know

You was pure inside out, and not just a ho

Oh my god, my folks takin to you, now it's official

If other girls would call the crib, my mommy she would blow the whistle

I'ma, past the fatuation love is in effect, now

What you call sex, I say 'yo baby I'm stressed out'

We hooked a bond that's so strong knowin

CHORUS (3x) [verse 2 cuts in]

Many years in the mix now

We get a crib together, our love is tough as leather

Always by your side like a shadow, but not narrow

You be like my queen, OC I'll be your pharoahe

Handle each other with care, we're

Inseperable, none come second to you

We imbelish in trust, we might fuss and cuss

Cause we're like stainless steel baby, we can never rust

Blessed with God, for grantin my soulmate to life

Commonlaw, 9 years, you officially my wife, ooh

Do what you want, I don't worry bout fools

Cause I know know it's me you're comin home to, true

Teenage love turned into somethin strong knowin

CHORUS (3x)

Always and forever, forever always

So much temptation but I don't pickup strays

Case in fact, I'd rather be many a groupies

Lookin fine like I realized they just floosies

Toured the world from Amsterdam to Japan

Shot at me on tour, hooker tried to play a man, now

Thought about my girl, my moms and my pops

If it wasn't for the cops I'd be layin in a box

Dyin in vain, causin whole lotta pain

Tombstone mighta read 'Gave it what all for the fame'

And when I'm away call my woman every day

I figure why fuck up a good thing over one night's lay, I say

Gettin past all the sour times we had

From others intervening talkin nothing but trash, but

We got a bond that's so strong knowin

CHORUS [fades until end]
