

Every Six Seconds

O-Town

Every six seconds
Every six seconds
Baby I can't stop
My mind from slipping
Every six seconds or less
Preoccupation with the opposite sex
And you're the one I blame
For making me go crazy
I think of you and drift away
Fourteen thousand times a day

Victoria's Secret I've been keepin'
And its getting harder all the time
I can't keep it undercover
I need your soft lips kissing mine

Every six seconds
My body starts beggin
Your sweet thing is wreckin me
Until you give me some
Ten times a minute
Six hundred times an hour
Another cold shower
Until you give me some
(Until you give me some)

I picture you in red MAC lipstick
Sponging all over me
Leaving a mark on my fantasy
Or swimming in water wearing nothing but moonlight
Both of us soaking wet (splash)
Half way to the towel is as far as we get

Victoria's Secret I've been keepin'
And its getting harder all the time
I can't keep it undercover
I need your soft lips kissing mine

Every six seconds
My body starts beggin
Your sweet thing is wreckin me
Until you give me some
Ten times a minute
Six hundred times an hour
Another cold shower
Until you give me some
(Until you give me some)

Every six seconds
My body starts beggin
Your sweet thing is messin me
Until you give me some
Ten times a minute
Six hundred times an hour
Another cold shower
Girl you got the power
Until you give me some

Thoughts of you keep swimming through my veins
Baby night and day
And I cannot concentrate on anything
But this urge I have inside
Every six seconds
Every six seconds
Until you give me some
Every six seconds
Every six seconds
Until you give me some

Every six seconds
My body starts beggin
Your sweet thing is wreckin me
Until you give me some
Ten times a minute
Six hundred times an hour
Another cold shower
Until you give me some

Every six seconds
My body starts begging
Your sweet thing is wrecking me
Until you give me some
Ten times a minute
Six hundred times an hour
Girl you got the power
Until you give me some
Every six seconds
