Off

O-Town

I pick up some wine, on my way, comin' over
You wanna get high? Break it up I'll roll it for ya
Ya heard all the hype, and tonight is the night
Ya just the right sign, ya just my type

We can race home
Play some Trey Songz
Put that bass on
Girl you know I

Don't care what you're wearing baby, you're just gonna take it off
I know you think I'm playing, but you're perfect just the way you are
So we should take the night off, let's turn all the lights off
I'll take all your clothes off, go until we doze off, then we float off ya
Don't care what you're wearing baby, you're just gonna take it off

I'm coming in hot, make some waves I'm on that motion
Drawing your parts. Trace it up and down your torso
Ya better on top, triple-double on lock
It's just the right size. This could take all night

Let's just stay home
Bumpin' Trey Songz
Don't care how you got on
Cause girl you know I

Don't care what you're wearing baby, you're just gonna take it off
I know you think I'm playing, but you're perfect just the way you are
So we should take the night off, let's turn all the lights off
I'll take all your clothes off, go until we doze off, then we float off ya
Don't care what you're wearing baby, you're just gonna take it off

Ooh
Baby, baby, baby, if it's all right, all right (yeah yeah)
Ooh
I just wanna love you, love you all night, all night, yeah

Don't care what you're wearing baby, you're just gonna take it off
I know you think I'm playing, but you're perfect just the way y

ou are
So we should take the night off, let's turn all the lights off
I'll take all your clothes off, go until we doze off, then we f
loat off ya
Don't care what you're wearing baby, you're just gonna take it
