

# So Goodnight

O-Town

We got into it, right before we went to sleep  
I wasn't ready yet, I wasn't about to leave  
Baby I know that we can work through these issues  
And if I walked out now you'd know that I miss you

When we in the streets it's magic  
But lately in the sheets there's static  
You're getting under my skin  
But I keep letting you in  
But I keep letting you in

Cause I've never been good with goodbyes  
Cause the words just don't come out right, come out right, no  
That's the root of the problem  
Cause I've never been good with goodbyes so goodnight

Goodbye so goodnight  
Cause I've never been good with good good good goodnight

Like a magnet, we are so attracted fighting through the passion  
Smoke another cigarette, and then go another round  
Baby I know that we can work through these issues  
And if I walked out now you'd know that I'll miss you

When we in the streets it's magic  
But lately in the sheets there's static  
You're getting under my skin  
But I keep letting you in  
But I keep letting you in

Cause I've never been good with goodbyes  
Cause the words just don't come out right, come out right, no  
That's the root of the problem  
Cause I've never been good with goodbyes so goodnight

Goodbye so goodnight  
Cause I've never been good with good good good goodnight

We got into it  
Like a magnet  
That's the root of the problem  
Cause I've never been good with good good good goodnight

I've never been never been good  
Goodbye so goodnight  
Let me get a kiss tonight  
Cause I've never been good with good good good goodbye

I've never been never been good  
Goodbye so goodnight  
No one let you go, no one let you say no  
Cause I've never been good with good good good goodbye
