

The Seventh Aeon

Obscura

Foul and tainted, putrid in spite
Departed, serene, deceived in faith
Emanated and ruptured in creed
Condemned forever, captured in doom

Devoured in oblivion, redeemed in gloom
And abandon demise, I stare in eternal despair of yore

Perseverant and keen, I endure the curse
In boundless spirits, the faith of gods

Devoured in oblivion, redeemed in gloom
And abandon demise, I stare in eternal despair of yore
The seventh aeon elating, the bringer of light enfolding its vi
gor
In a halo of light, I bare as remaining grandeur once more

Shrouded in silence, unhallowed black sermon
Condemned forever, captured in doom

Devoured in oblivion, redeemed in gloom
And abandon demise, I stare in eternal despair of yore
The seventh aeon elating, the bringer of light enfolding its vi
gor
In a halo of light, I bare as remaining grandeur no more
