

## Battle metal

## Obscurity

Fight with me, kill with me, by my Side  
Fight with me, kill with me, by my Side  
We... kill... we... thrill...  
We... kill... we... thrill...  
We give you pain until we gain  
We give you pain until we gain

Fight with me and come to see all the mighty power  
Kill with me and cap all enemy with blood  
Give them pain until the end until we may fall  
We will thrill your mind and let rotate your neck

It's never too loud for a Heavy Metal crowd  
Bang your head and let rotate your neck

Fight with me, kill with me, by my Side  
Fight with me, kill with me, by my Side  
We... kill... we... thrill...  
We... kill... we... thrill...  
We give you pain until we gain  
We give you pain until we gain
