

Golden Gate Bridge

Ocean Colour Scene

Something I need from you
I really want to know
Like the way you do
I've been burned before
But not this way by you

And I need to know I can trust you with my life
On the Golden Gate bridge
Or a fire in the night
Or the edge of the night
And I really hope I can have you all my life
A fifty second anniversary
Of the whole of time

Something I need to know
Is any of this true
All the things they say
Or are they only cruel
But I fear only pain

And I need to know I can trust you with my life
On the Golden Gate bridge
Or a fire in the night
Or the edge of the night
And I really hope I can have you all my life
A fifty second anniversary
Of the whole of time

And I need to know can I trust you with my life
On the Golden Gate bridge
Or a fire in the night
Or the edge of the night
And I really hope I can have you all my life
A fifty second anniversary
Of the whole of time

Something I need from you
Something I need from you
Something I need from you
Something I need from you
