

Here Comes The Dawning Day

Ocean Colour Scene

Please don't leave tonight
Stay a while and let the night time
Settle in the fire
Feeling warm with your eyes torn out

Half alive and wild
Half alive and wild
Now here comes the dawning day

There's no moving on
Staying here is saying home
And being home is warm
Being warm is like a child

So alive and wild
So alive and wild
Now here comes the dawning day

All the world's a stream
Running faster than the fishes
Deep under the sea
Is deeper than the blue between

Half alive and wild
Half alive and wild
Now here comes the dawning day
