

Jimmy Wonder

Ocean Colour Scene

Holey moley, ...
The party's leaving, the music's down
There's just us waiting, the wind is howling
The birds are breeding, the men are scowling
And no-ones got a clue
But it's a lifetime sentence loving you

It gets you down when you come on over
'cos drink to drink and the four leaf clover
And all that's left is too much bother
You love her deep but you like your mother
And no-ones got a clue
But it's a lifetime sentence loving you

Come on listen just this one time
I'm assisting, one to another
That Jimmy Miller was Jimmy Wonder
We like to listen now, Jimmy's under
And no-ones got a clue
But it's a lifetime sentence loving you

For Jimmy Miller and Mrs Mills, Arthur Miller
Windy Miller and the (??)hunt
But Jimmy Miller's got a lot of Front
And all of this is true
I've got a lifetime sentence loving you
And all of this is true
I've got a lifetime sentence loving you
A lifetime sentence loving you
A lifetime sentence loving you
I've got a lifetime sentence loving you...
