

Make It Better

Ocean Colour Scene

Look in my face, come on my way
There's lots of questions over you

They are forward, they sound different
Looks like I'm losing face over you
Ah ha, over you, ah ha

Come on and make it
Come on and make it just better
So much better
Like I can now breathe
Like I'm not just whispering on the breeze

Coming home to, well if I've done wrong to
Looks like we should meet inbetween
Ah ha, inbetween, ah ha

Come on and make it
Come on and make it just better

Come on and make it
Just come on and make it just better
So much better
Like I can now breathe
Like I'm not just whispering on the breeze
