

Mistaken Identity

Ocean Colour Scene

I went out and fell the other night
Hanging out got into a fight with
The other second home leaving just me
Swaying home I stumbled to my room
Never wanted to be home so soon
Because the only friend I stayed from the moon

It's just another case of mistaken identity
With your heart and space one more face that looks like me

I was lost alone in richard park
Never should've strayed there after dark and then
The blade was in between just him and me
Running home I stumbled to my room
Never wanted to be home so soon
You've never wanted to see me home so soon

It's just another case of mistaken identity
With your heart and space one more face that looks like me

It's just across your aim when I loan for your mistakes
With your heart and space one more face that looks like me
I went out and fell the other night
