

On My Way

Ocean Colour Scene

Father forgive me
But I don't care
Taking off the things they wear
In lines
She's got a family
Now they stay inside
Don't think she'll make it home tonight

And I'm on my way to the next town
And I'm on my way in a hurry and I'm on my way
My head down and down and down
And I'm on my way
Don't worry

Don't look straight at me
Get that straight
Get out and leave before the next day
He made it happen
But I digress
I believe that something must have happened

And I'm on my way to the next town
And I'm on my way in a hurry and I'm on my way
My head down and down and down
And I'm on my way
Don't worry

Take me alive take me tonight
Take me dead this time tomorrow
Take me to my place
Give me what you do
Find out the meaning of tomorrow
It will not happen
And it never can
Fe fi sit down your pattern

And I'm on my way to the next town
And I'm on my way in a hurry and I'm on my way
My head down and down and down
And I'm on my way
Don't worry
