

The Face Smiles Back Easily

Ocean Colour Scene

It's not the way that you look
Or the way that you comb your hair
I know we'll always be there
By the look, by the book
And your troops and your devil may care
I know we'll always be there
I know we'll always be there

And by the way your eyes are shining through
There's nothing to do but wake up in light
And like the way your eyes they shine with the sun
And lighten everyone who wakes up in time to see
The face smiled back easily

I know we'll always be there
By the look, by the book
And your troops as your devil may care
I know we'll always be there
I know we'll always be there

It's not the way that you look
Or the way that you comb your hair
I know we'll always be there
