

## Devil Walk God Walk (heaven Walk Hell Walk)

Oceana

For those who mean it your skin will be cleaned  
The scales you have shed for the family disease  
Wash the salt from you palms  
You're sweating it out I beg for the taste of it  
Believing in him

Devil the fear of you in me  
Delivering the failures that made me believe  
There's no life worth living that children will leave  
We'll separate the family disease we'll create  
If we're dead we'll believe

It was diseased I was left just to see it  
The rotting flesh my teeth were all broken from feeding  
I found a better love as I aged  
It progressed and left It's not over till It's over I said

Devil the fear of you in me  
Delivering the failures that made me believe  
There's no life worth living that children will leave  
We'll separate the family disease we'll create  
If we're dead we'll believe

Guard them demon  
Let them to be headed  
Kill them burn them  
We'll be left seedless men  
Kill them burn them  
We'll be left seedless men  
Kill them burn them  
We'll be left

Found myself with a cheap mask in hand  
Drowned out  
Birth has it's hands reached out to welcome the sound of hell  
Open your eyes breathe now  
But don't move your mouth  
Open your eyes child breathe now now  
But don't move your mouth  
All of my heartless life I die  
My voice will change when I start to smile  
My mind gets eaten away our children die die

Wash the salt from your palms you're sweating it out  
I beg for the taste of it  
Wash the salt from your palms sweating it out  
I beg for the taste of it

Guard them demon  
Let them to be headed  
Kill them burn them  
We'll be left seedless men  
Kill them burn them  
We'll be left seedless men  
Kill them burn them  
We'll be left

All of our sons and our daughters are dead  
And the birth that we stole  
Eater grows old
