

Over You

Oceana

You were clever, should've left you when I could've yeah
Keep it moving, move along
Yeah, you had me but you lost me
Time to walk away
Keep it moving, move along

It's been a long, long time, you've been on my mind
Can't respond and back to you

Had to find someone new
Just to get over you
Had to find someone new
Just to get over you

(I won't turn around)
(I won't turn around)
(I won't turn around)
(I won't turn around)

Had to find someone new
Just to get over you

I was tryin', you were lyin', such a big mistake
Now there's nothing left to do
Sorry said, now unpack, time to walk away
I've got nothing left to lose

It's been a long, long time, you've been on my mind
Can't respond and back to you

Had to find someone new
Just to get over you
Had to find someone new
Just to get over you

(I won't turn around)
(I won't turn around)
(I won't turn around)
(I won't turn around)

Had to find someone new
Just to get over you

Wished you could see me now
(You)
Wished you could see me now
(You)

I was tryin', you were lyin', such a big mistake

Had to find someone new
Just to get over you
Had to find someone new
Just to get over you

(I won't turn around)
(I won't turn around)

(I won't turn around)
(I won't turn around)

Had to find someone new
Just to get over you

Had to find someone new
Just to get over you
