

## So Far from Fair

Oceana

Are you a ghost, a silhouette, something I think I've seen?  
The smell of smoke, your cigarettes, that's all you left for me  
'Cause even with you down on your knees  
There's nothing you can say I'll believe  
Hold your tongue, what's done is done

Is it so hard to be there? (Baby, yeah)  
Is it so hard to show you care? (So hard)  
Tell me, if it's so hard, why we've come so far?  
This is so far from fair

Uh huh, ay, ay  
Uh huh, ay, ay  
Uh huh, ay, ay  
Oh

I had a shadow follow me, held me closer, kept me better company  
Promised me you'd never leave  
Staring at the mirror on the wall, who's the biggest fool of them all?  
Silly me, so lucky, whoa

Is it so hard to be there? (To be there)  
Is it so hard to show you care? (So hard, show you care)  
Tell me, if it's so hard, why we've come so far?  
This is so far from fair (So far)

It used to feel so good, so right  
We used to be so close sometimes  
Ooh, but all my love scared you away  
Baby, I don't wanna waste my time  
Running around in the back of your mind

Is it so hard to be there? (Baby, yeah)  
Is it so hard to show you care? (So hard, show you care)  
Tell me, if it's so hard, why we've come so far?  
This is so far from fair (So far)

Is it so hard to be there? (To be there)  
Is it so hard to show you care? (So hard, show you care)  
Tell me, if it's so hard, why we've come so far?  
This is so far from fair (So far)
