

Some People

Oceana

So good to be me
So good to have you
Whenever you're near
Feel safe in your arms
No good on my own
No fun without you
Try hiding my tears
I am lost

Some people like being alone
Some people they just don't know
Some people don't want no one
But I want you, you, you.

So good to be missed
When I am gone away
On contemplate days
Your words in my ear
You're touching my skin
Without you I can't breathe
I am lost

Some people like being alone... (2x)

Everything happens for a reason
And now I know
We're still here when I see
So many come and go

So good to be me
So good to have you
So good to be me
So good to have you
Whenever you're near
Feel safe in your arms
No good on my own
No fun without you
Try hiding my tears
I am lost

Some people like being alone...
