

Why would you wanna hurt my feeling?
When all I do is love you
And give you sexual healing?
Whenever I'm around you
You make me wanna touch the ceiling
Am I really made for you, baby?
Or am I only dreaming?

Why would you wanna hurt my feeling?
When all I do is love you
And give you sexual healing?
Whenever I'm around you
You make me wanna touch the ceiling
Am I really made for you, baby?
Or am I only dreaming?

Let's sit down and talk this over
Lately things don't feel so right
You left too early in the morning
Still you come back late at night

Oh baby, tell me, why would you wanna hurt my feeling?
When all I do is love you
And give you sexual healing?
Whenever I'm around you
You make me wanna touch the ceiling
Am I really made for you, baby?
Or am I only dreaming?

The pain I feel inside
Hurts so bad it makes me cry
Oh baby, tell me why
Oh why, oh why, oh why?
Oh why?

What happened to the good times?
What happened to the good times?
What happened to the good times?
What happened to the good times?

You don't call me anymore
But you're always on the phone
You used to be my closest friend
Said you'd be there 'till the end

But you cheat, you lie, you make me cry
Some bullshit used as alibi
Oh why?
Oh why?

But baby, tell me, why would you wanna hurt my feeling?
When all I do is love you
And give you sex with healing

Oh baby, tell me, why would you wanna hurt my feeling?
When all I do is love you
And give you sex with healing

Oh baby, tell me, why would you wanna hurt my feeling?
When all I do is love you
When all I do is love you
Oh baby, tell me why

Baby
