

Synchronicity invading my surroundings  
I can see history repeating

Time breaks down  
I swear I've seen this all before  
Lived every ending in my head  
A steady pace on a familiar path  
But in a place I know I've never been

("If all time is eternally present, all time is unredeemable.")

Just like a shout in the dark  
We echo  
Into the ether  
Until we fade like a spark  
We echo  
Into forever

Connected beyond consciousness  
Throughout time and space  
Maybe we've lived this all before  
Maybe past and present are all the same

("What might have been and what has been point to one end, which is always present. Footfalls echo in the memory. My words echo thus, in your mind.")

Just like a shout in the dark  
We echo  
Into the ether  
Until we fade like a spark  
We echo  
Into forever

One ancient melody repeating  
Ad Infinitum  
We were once the same note  
But now we echo  
Into forever
