

Cool it down  
The mind is a riddle you cannot solve  
Cool it down  
The body's a landscape of wildflower

Stay here, stay here  
Stay here, I want you  
And I know this can't be wasted love  
Stay here, I want you

Stay here, stay here  
Stay here, I need you  
Please don't tell me that it's wasted love  
Stay here, I need you

Sleep, I know  
You haven't been dreaming, you overflow  
And I still feel you around  
You've become a tempo that my heart knows

Stay here, stay here  
Stay here, I want you  
And I know this can't be wasted love  
Stay here, I want you

Stay here, stay here  
Stay here, I need you  
Please don't tell me that it's wasted love  
Stay here, I need you

Will you see me, love  
Who am I in your temple

Will you see me, love  
Who am I in your temple

Stay here, stay here  
Will you see me, love  
Who am I in your temple  
Stay here, I want you

Stay here, stay here  
Will you see me, love  
Who am I in your temple  
Stay here, I need you
