

Vulture, Vulture

Of Monsters and Men

He lives in the darkness, he's calling my name
He's keeping me up, keeping me up
I'm wide awake
He feeds on my ego, he swallows my pain
So figure it out, figure it out
Stay awake

This is all I know
And I can feel it grow
I'm restless, oh I'm restless
It's hard for me to breathe
When all I do is feel so heartless
Am I heartless

Can I keep it up
Still got that feeling
I don't know about these heavy hands
Well maybe they can pull me up
Still got that feeling
I don't know about these heavy hands
Cause lately I feel like a desert island

I had a vision of pillars of sand
It's keeping me up, keeping me up
And I bend
Break me in two so we can both dance
We'll figure it out, figure it out
Hand in hand

This is all I know
And I can feel it grow
I'm restless, oh I'm restless
It's hard for me to breathe
When all I do is feel so heartless
Am I heartless

Can I keep it up
Still got that feeling
I don't know about these heavy hands
Well maybe they can pull me up
Still got that feeling
I don't know about these heavy hands
Cause lately I feel like a desert island
Still got that feeling
Lately I feel like a desert island
Still got that feeling

I don't know about these heavy hands
Well maybe they can pull me up
Still got that feeling
I don't know about these heavy hands
Cause lately I feel like a desert island
