Go On Git Now

Off With Their Heads

Take my advice and leave when you have a chance,
It's starting right now; I can feel it's starting again.
It's bad enough I,
It's bad enough I can tell in advance.

And I know you'll be miserable in no time flat,
And I know you'll be wishing that you had left.
It's bad enough I,
It's bad enough I don't even feel like it's worth it.
I don't even feel like it's worth it,
I don't even feel like it's worth it to start over again, yeah.

Take my advice and leave when you have a chance,
It's starting right now; I can feel it's starting again.
It's bad enough I,
Bad enough I,
Bad enough I,
It's bad enough I can tell in advance.
