

Coming for You

The Offspring

Time to go and get our kicks
Dropping out and getting in the mix now
Here in the backroom, nothing to do
We're not bored, we're just sick of you, yeah
Yeah, sick of you

Break down, take down, now it's on
Sold out, blow out, Donkey Kong
Well, no! Hell, no! What you gonna do
When they keep coming for you

See the shadows marching on
Yesterday's dreams are dead and gone
Dead and gone
Hear the cheering up above
Down below is push and shove
Yeah push and shove

Break down, take down, now it's on
Sold out, blow out, Donkey Kong
Well, no! Hell, no! What you gonna do
When they keep coming for you

Bet some, get some, knock you down
Low-down, show down, kiss that ground
Well, no! Hell, no! What you gonna do
Lights out, permanent snooze, they'll be coming for you

What's up, fuck you up
Break down, take down, now it's on
Sold out, blow out, Donkey Kong
Well, no! Hell, no! What you gonna do
They just keep coming for you

Bet some, get some, knock you down
Low-down, show down, kiss that ground
Well, no! Hell, no! What you gonna do
Lights out, permanent snooze, they'll be coming for you

They'll be coming for you
They'll be coming for you
