

# The Opioid Diaries

## The Offspring

Their end of days looks more like tomorrow  
Their end of days started with a pill  
But they're not junkies like the news guy said  
They're just kids who've gotten over their heads  
Big Pharma hooked them in the first place  
And it won't stop

Come on Sean, you're on drugs  
You're gonna run out of luck  
You could still find your way  
You know it won't get better

Come on home while you can  
I know I don't understand  
You could still find your way  
You know it won't get better

When those pills are gone, what's gonna happen?  
When those pills are gone, what drug is next?  
We've made a nation full of kids on dope  
They're looking down now at the end of their rope  
So now who's gonna come and fix this?  
Cause it won't stop

Come on don't tie it off  
Be your undoer of knots  
If you can't still find your way  
You know it won't get better

Come on hold while you can  
I know I don't understand  
If you can't still find your way  
You know it won't get better

It won't get better  
It won't get better  
It won't get better  
It won't get better

Now we've made a nation full of kids on dope (dope!)  
They're looking down now at the end of their rope (rope!)  
So now who's gonna come and fix this?  
Cause it won't stop now!  
Yeah!

Cause they're not junkies like the news guy said  
They're just kids who've gotten over their heads  
Big Pharma hooked them in the first place  
And it won't stop

Come on Sean, you're on drugs  
You're gonna run out of luck  
You could still find your way  
You know it won't get better

Come on hold while you can  
I know I don't understand

You could still find your way  
You know it will get better
