

We Are One

The Offspring

We are one with ourselves
We don't give a shit about anyone else
Well it won't be wrong until our day
In the sun is gonna stop
The walls come tumbling down

We are one, we are free
We are headed for obscurity
We are one, we are weak
We are gonna make ourselves extinct

We are one you know it's true
Don't fuck with us or we'll fuck with you
It's a mentality that kills the best
We better stop
The walls come tumbling down

We are one, we are free
We are headed for obscurity
We are one, we are weak
We are gonna make ourselves extinct

We are one and it won't be news
When we hang ourselves with one collective noose
Well, it won't be wrong until our day
In the sun is gonna stop
The walls come tumbling down

We are one, we are free
We are headed for obscurity
We are one, we are weak
We are gonna make ourselves extinct

Bigger they are the harder they fall
Bigger they are the harder they fall
Bigger they are the harder they fall
