

# We Never Have Sex Anymore

The Offspring

We never have sex anymore  
We never roll around on the floor like we did so long ago  
You never yell at me anymore  
You never want to even the score like you did so long ago  
But you're still with me so I guess am not complaining  
And you always leave my dinner on the stove  
Baby please  
If you won't love me will you hate me  
If you won't violate me  
Well will you just at least aggravate me  
Baby please roll into the covers  
One way or the other is what I say ay ay ay ay hay hay hay

We never have sex anymore  
We never make love to (our song) so long ago  
We never have emotional strife  
You never end threaten my life like you did so long ago  
But am just doing me so I guess am not complaining  
And you let me drive your car when you're not home  
Baby please if you won't love me will your hate me  
If you won't violate me W  
Ell will you just at least aggravate me  
(We never have sex anymore)  
Baby please roll into the covers  
One way or the other is what I say ay ay ay ay hay hay hay

We use to do it constantly  
We use to have a ball  
We use to do it everywhere  
We never do it at alllllll  
Ahhhhh ay ay ay ay ay

If you won't love me will your hate me  
If you won't violate me  
Well will you just at least aggravate me  
Baby please roll into the covers

We never have sex anymore oh ohhh  
We never have sex anymore oh ohhh  
We never have sex anymore oh ohhh  
We never have sex anymore oh ohhh
